The Opportunity

Right now, when a customer searches for Full Circle Woodworx at 9 p.m., they land on a Facebook page with no clear way to browse your wood, no photo gallery of your live edge slabs, and no easy way to reach you outside business hours. Many of those visitors are real customers looking for a dining-table slab, a kiln-dried board, or a custom cut — and they leave without ever making contact.

This proposal puts an end to that. You get a professionally designed, mobile-friendly website that makes Full Circle Woodworx look like the premium sawmill it is — with a clean contact form that delivers every inquiry directly to your inbox so you can call the customer back yourself, on your own time.

What's Already Built

The website is already designed, built, and live on a preview link I sent you by text. You've already seen the look and feel. This proposal covers launching it on your custom domain (fullcirclewoodworx.com) and keeping it running smoothly going forward.

Scope of Work

- ★ **Custom-designed, mobile-friendly website** with sections covering your story, services, wood, gallery, and contact information.
- ★ **Contact form** that sends customer messages to your email address.
- ★ **Custom domain** — your website lives at fullcirclewoodworx.com with the secure padlock symbol in customers' browsers.
- ★ **Photo gallery section** showcasing your slabs, projects, and finished work.
- ★ **Hosting setup** so the site stays online and accessible to visitors.

Investment

\$1,500 lump sum — covers the website build, launch on your custom domain, and the first full year. Paid on acceptance of this proposal. No monthly invoices, nothing recurring on your books — one simple transaction.

We can revisit at the end of the first year and decide together what makes sense going forward.

Next Steps

If this proposal looks good, sign below and send back — a photo of the signed page by text is fine. I'll send an invoice for **\$1,500**, and we'll work together to get the site launched on your custom domain.

Questions, edits, or want to talk something through first? Just text or call. There's no rush and no pressure — this is your business, your call.
